OWLHACKS - SEPTEMBER 23-24 - TEMPLE UNIVERSITY

Experience the pinnacle of innovation at OwlHacks, Temple University's annual student-run hackathon. Join us for OwlHacks Fall 2023, where over 200 students from Temple University and regional colleges will converge for 30 hours of technological engagement. With outstanding projects, passionate participants, and unwavering support from our sponsors and university, OwlHacks is set to reach new heights. This year, we're expanding our reach, welcoming more students, and involving numerous student organizations. Please don't miss out on this wonderful opportunity - you can secure your place at OwlHacks Fall 2023 today.

We owe a huge thanks to our generous sponsors who make OwlHacks possible. We're thrilled to partner with you for OwlHacks 2023, an event that's all about pushing boundaries!

Officially supported by Temple University's Computer and Information Sciences Department and the College of Science and Technology, with the guidance of Stephen MacNeil and Claudia Pine-Simon, we're set for an incredible experience. Your support fuels innovation and empowers students to make their mark in the tech world. Join us on this exciting journey and let's make OwlHacks 2023 an epic celebration of creativity!

Flight to the Future

OwlHacks Fall 2023

Our Tracks:

- 1) ***Smart Health:*** The recent Covid-19 pandemic has highlighted the importance of good health. How can we design technology that promotes healthy lifestyles and improves accessibility?
- 2) ***Urban Tech:*** With new technology constantly arising, living environments can rapidly change. Can we make technology that can help cities improve safety, sustainability, efficiency, and more?
- 3) ***Inclusive Education:*** How can we use technology to promote equality for all students?
- 4) ***Philly Special:*** Are you a fan of Philadelphia's rich historic culture? Do you want to find the best cheesesteaks? This track is for hackers to get creative and make anything Philly related!
